

## THE MAGNIFICENT SVEN

### WARHAMMER CARDBOARD CHARACTERS

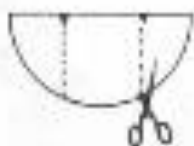

#### How To Assemble Your Cardboard Characters

The Magnificent Sven Cardboard Characters provide you with a selection of full-colour figures with which to play the Warhammer adventures.

- 1 Carefully cut out each figure following the white border and the outer edge of the green base.
- 2 Cut straight lines through the base on a line to the small triangles marked.
- 3 Bend the two end sections of the base one way, and the middle section the other. Your figures will now be free standing.

Further rigidity can be achieved on your cut-out figures by gluing it to a round card base, coin or washer.

Some of the figures have not been coloured. This allows you to make multiple regiments of figures. This can be done by either photocopying or tracing the printed figures, and then gluing the copy onto thin card. The new figures can be coloured using either paints or coloured pencils. Additional Sven warrior types can be made up by gluing the extra weapons provided to the basic Sven warrior figures.
